

July 2001

Dear Michael,

Dear Family, Friends & Community Members,

We would like to extend our deepest thanks to you for your participation in the Chuck Boyle Memorial Golf Tournament at Orange Hills on June 22, 2001.

When Chuck died three years ago our whole world turned upside down. Suddenly our plans and dreams for the future all changed in an instant. We never imagined that he would not be around, that he would not be here to ask for his help on important decisions or just for his daily advice. Now there is such a void, and there have been so many times that we wish he were here to share those special moments with us.

Chuck was also the breadwinner for the family. As with most families today, mom went to work to supplement the bills for the children's college education. This income is now the sole support for our family's living expenses and the college expenses became a great concern.

But then a group of wonderful people got together and organized a golf tournament to help with our financial needs. The response and support has been outstanding over the past three years and the money raised from the tournaments has only been used to pay for college expenses. We are so blessed to have so many caring people in our community. I know that Chuck would have been so proud to be associated with so many caring, generous, and dedicated people.

We are so thankful for your support and because of your contributions Colleen and Stephen have been able to continue to pursue their college education. Colleen graduated with a Bachelor of Fine Arts degree in Graphic Design from James Madison University on May 5, 2001. Colleen was named to the President's List (GPA of 3.8 – 4.0) for the spring semester of her junior year as well as in her senior year. She also won the Judge's Choice Award in "The Real Show" by the Art Director's Club of Metropolitan Washington this past April for her poster design. She has joined the ranks of the employed working in the creative department of 'catalyst', a marketing firm in Fairfield, CT. Stephen has completed his second year at James Madison University majoring in Computer Science. He will be returning to start his junior year this fall.

We thank you again for your generosity from the bottom of our hearts. We only hope that someday we may be able to help others in need as you have all helped us.

*Thank you
for sponsoring a
hole & for your
support!*

*Barbara
Colleen &
Stephen*
